Since its formation in 1982, Urethane Manufacturers of Australia Pty Ltd (UMA) has gained the enviable reputation as Australasia's leading supplier of Replacement Parts for Mineral Process Equipment and Accessories and Coatings. UMA success is largely attributed to its:

- Cost savings, resulting from a Longer Working Life, achieved by the Strong, Robust Construction, and Innovative Designs of the products;
- Customer Satisfaction, gained from its Diverse and Extensive Range of Quality and Reliable products;
- Efficient Delivery

UMA has been the first choice of many national and international companies considering new products or investigating more cost efficient material. Our customer base is as diverse as our product range. UMA services most Mineral Mines in Australasia with their equipment spare parts needs.

Our extensive range is used widely by Professionals engaged in Mining, Manufacturing and Repair. Whatever your application, you will find UMA superior quality will meet your most demanding requirements.

It has been the commitment to Quality, Service and Reliability that has distinguished Urethane Manufacturers of Australia Pty Ltd from its numerous imitators.
